YUKTHA S

Theni, Tamil Nadu, India | +91-6369771791 | yukthaa2005@gmail.com | LinkedIn | GitHub | Portfolio

OBJECTIVE

B.Tech AI & Data Science student with hands-on experience in Python, SQL and JavaScript, building full-stack applications and AI-powered solutions.

TECHNICAL SKILLS

Programming & Data: Python, SQL, JavaScript
Analytics & Business Intelligence: IBM Cognos Analytics, multisource data integration
AI & Generative AI: Generative AI, Hybrid RAG, Prompt Engineering, Ollama (Qwen3), Hugging Face, FAISS, BM25
Application & Workflow Development: Flask, Streamlit, Node.js
Databases & Tools: MySQL, Oracle, Git, GitHub, Docker, VS Code

PROJECTS

AI-Based Multilingual Mass Communication & Public Awareness Management Platform | MySQL, REST APIs, Argon2, RBAC

- Developed a full-stack AI-powered communication platform with audience segmentation, campaign management, and Role-Based Access Control (RBAC) for secure, role-specific access.
- Implemented AI-driven content generation, multilingual translation, audience personalization, sentiment analysis, and tone optimization across six Indian languages.
- Built automated content quality and compliance checks, CSV/Excel data ingestion, and REST APIs, validating core AI workflows through 23 backend tests.

RouteIQ — Intelligent Payment Route Recovery | Python, Streamlit, Scikit-learn, Git

- Built an automated decision-support system to detect degraded payment routes, quantify revenue at risk and select better-performing alternate routes.
- Added guardrails, safety checks, canary testing and stop conditions to control automated route switching and limit operational risk.
- Validated behavior with 304 automated tests; evaluated recovery rate, net recovery and ROI to measure business impact.

Smart Legal Assistance | Python, Streamlit, Ollama (Qwen3), Hybrid RAG, FAISS, BM25, Docker, Git

- Built a GenAI assistant for legal document Q&A combining dense (FAISS) and sparse (BM25) retrieval across multiple PDFs, returning context-aware answers with source citations.
- Ran Qwen3 locally via Ollama to avoid dependence on a single hosted LLM vendor; added offline Piper text-to-speech for accessibility.

EXPERIENCE

Infosys Springboard | Docker, AI/LLMs, GitHub **Aug – Oct 2026**

- Gained hands-on training in Docker for containerizing and running applications consistently across environments, and in GitHub for version control and team collaboration.
- Studied AI and Large Language Models (LLMs) along with industry-used technologies and development practices, applying them in a real-world project.
- Completed the project AI-Based Multilingual Mass Communication & Public Awareness Management Platform, featuring AI content generation, translation across six Indian languages, sentiment analysis and role-based access control.

IBM – AdroIT Technologies Innovative Solutions Pvt. Ltd. | Cognos Analytics **Feb – Mar 2026**

- Built interactive business intelligence dashboards in IBM Cognos Analytics, integrating multiple data sources to support reporting and data-driven decision-making.
- Implemented filters, drill-downs and KPI visualizations so users could explore performance data.

Skylena Infotech — GenAI Intern **Jun – Jul 2026**

- Developed a source-grounded Hybrid RAG legal assistant (Python, Streamlit, Ollama/Qwen3, FAISS, BM25) supporting multi-document semantic search and Q&A.
- Built a PDF ingestion and parsing pipeline and integrated offline text-to-speech for query responses.

Ilan Tech Solutions — Intern, Oracle Services & Technology **Jun – Jul 2025**

- Developed the Purchase Module of an Asset Management System using Python, Flask and Oracle/MySQL.
- Implemented RBAC restricting purchase approvals to Super Admin users, securing the procurement workflow.

EDUCATION

Nadar Saraswathi College of Engineering and Technology, Theni **2023 – 2027**
B.Tech in Artificial Intelligence & Data Science | CGPA: 8.30

ACHIEVEMENTS

- Runner-up — Nexora 30-Hour Hackathon

CERTIFICATIONS

- Microsoft Applied Skills: Create an AI Agent — Microsoft Learn
- Back-End App Development with Node.js and Express — IBM Developer Skills Network
- PL/SQL 101 — Infosys Springboard
- Data Labeling Job Simulation — Forage Academy

LANGUAGES KNOWN

English, Tamil, Hindi
